JULIETTE KUNO (She/Her)

Product Professional in Transition

Languages: English + French | Linkedin | **Email:** juliettekuno@gmail.com

Senior events and account manager with 6+ years delivering complex projects across 100+ stakeholders. Moving into product, with recent training in PM, UX design, and Agile. My goal is to shape products through smart, intentional design, ultimately solving real human problems at a large scale.

EXPERIENCE

Events & Community Officer, The Castles Climbing Centre ..... 2022 Sep - 2024 Apr

- Leader of the full event lifecycle for the centre: pitching event idea, risk assessment, resources, logistics, and event delivery.
- Coordinated across 5+ internal departments in addition to external teams to deliver both B2B events for large brands (Arc'teryx, La Sportiva, Brit Rock, Reel Rock,) and community-led projects.
- Aligned events with the company values and boosted brand visibility by delivering 10+ events of varied scales per calendar year, doubling daily foot-traffic on large event days from 600 to 1200.
- Supported community outreach initiatives by conducting user research and creating pathways for under-represented and financially disadvantaged individuals to access climbing.

Account Manager [Sales & New Business], The Truman Brewery ..... 2018 Aug - 2022 Aug

- Acted as primary liaison for 100+ prospective clients, managing 50+ accounts end-to-end (Stranger Things for Netflix, Activision, Architect@Work, etc.), generating ~£90,000 in annual venue hire revenue.
- Consulted on briefs, event logistics, contract negotiations, and post-event debriefs while strategically coordinating venue turnover across the team's broader portfolio.
- Collaborated across 4 departments to ensure seamless delivery of a diverse event diary spanning film productions, B2B events, brand activations, and fashion/music video shoots.
- Delivered competitive audits and outreach strategies to optimise venue turnover.

Client Coordinator, FITCH 2017

Client Coordinator, Dallorso Conseils 2011-2013

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

Career Up-skilling: IBM Product Management Certificate ..... 2025 Nov - 2026 Apr

- Studied the complete product development lifecycle from ideation to commercialisation, covering business analysis, product design, market strategy, user research, Agile methodologies, and cross-functional collaboration.
- Created a full product case study for a hypothetical physical and digital product, including user personas, documentation, Figma wireframes, and GitHub Kanban board management with prioritised tickets.
- Passionate about applying design-thinking frameworks to develop environmentally sustainable products that deliver social and environmental high-impact.

Career Up-skilling: Google User Experience Design Certificate ..... 2025 May - 2025 Oct

- Developed strong knowledge in user-centred design following the design thinking framework from user empathy through pain points definition, solution ideation, prototyping with Figma, and iterative testing.
- Learned UX research fundamentals including planning research studies, conducting interviews and usability tests, and synthesising research findings.
- Applied foundational UX concepts in practical projects, focusing on accessibility, equity-focused design, and the social and environmental impact of digital and physical products.
