Product Test Analyst

Product Test Analyst

Reports to	Product Delivery Manager
Department	Technology
Line Management	No Direct Reports
Principal Location	South Kensington
Hours	36
Salary	£44,000 - £50,000
Contract	Permanent

Who we are

The V&A is a family of museums dedicated to the **power of creativity.** Our mission is to **champion design and creativity** in all its forms, advance cultural knowledge, and inspire makers, creators and innovators everywhere. We share a 5,000-year-old story of creativity through **exhibitions, events, educational programmes, digital experiences, conservation, research,** and an ever-evolving national collection of over 2.8m objects spanning **every creative discipline.**

The Product Management team sits within the Technology department. The team is focused on delivering a Continuous Improvement programme for our key Technology products, ensuring that they remain fit for purpose in supporting the V&A organisational objectives. This role will be working closely with the Product managers and Delivery Manager to deliver key initiatives as part of the ongoing Commercial programme of work

About the role

The Product Test Analyst will be responsible for ensuring the quality and reliability of the Technology products by designing, executing, and maintaining test strategies within the Product team continuous improvement process. This role works closely with product managers, delivery manager, 3rd party suppliers and other stakeholders to validate requirements, identify defects, and support continuous improvement through efficient, modular and feature driven testing practices

1. Collaborate with the Product Managers, Delivery Manager and 3rd party suppliers to understand business requirements and acceptance criteria

2. Review user stories and provide feedback to ensure testability and clarity

3. Design, develop, maintain and execute both manual and automated test cases across all parts of the testing life cycle, from exploratory testing to regression testing

4. Participate in Product team processes, including sprint planning, daily stand-ups, sprint reviews, and retrospectives to ensure testing of the products reflects the needs of the internal stakeholders

5. Identify, document, and track software defects using tools such as Microsoft Azure Devops, Jira

6. Build test execution reporting capabilities to track and communicate test case pass/failure rates throughout the delivery lifecycle

7. Ensure quality standards are met before product releases

8. Promote quality best practices across the Product team

What we're looking for

Quality Assurance and Testing: Minimum 3 years experience in a Quality Assurance/Software testing environment, specifically in an eCommerce environment

Tool Proficiency: Skilled in using project management tools (eg Microsoft Azure Devops, Jira) to track testing progress and manage tasks. Experience of automated no/low code testing tools such as Leapwork, Selenium, Browserstack

API Testing: Basic understanding of API concepts (RESTful, JSON) as well as testing tools such as Postman or RestAssured

Test Cases and Scenarios: Demonstrable experience writing clear test cases and test scenarios

Continuous Improvement: In depth experience of Agile Methodologies (Scrum, Sprints, Retros etc) and rapid feature driven modular testing practices

Software Development Lifecycles: Strong understanding of software testing methodologies and how they fit into overall software development frameworks such as SDLC/STLC.

Collaborative Working: Significant skills in team collaboration and coaching, and adept at managing team dynamics to forge an environment where a team is empowered to deliver.

Clear Communication and Transparency: Maintains clear and open communication with all team members and stakeholders, keeping them informed of progress and challenges.

Why work here

We strive to integrate **equality, diversity, and inclusion** consistently and naturally into all our activities.

We are proud to be an **open, tolerant, and diverse** organisation. We want to do more to welcome a broader audience and develop a more diverse workforce.

We work closely with our **staff networks** to develop our employee experience.

The V&A values are **Equity, Sustainability, Generosity, Collaboration and Creativity.**

We are committed to a strict **zero tolerance policy on any discrimination, harassment or bullying.**

Disability Confident
We are committed to guaranteeing an interview for applicants who declare they have a disability and meet the minimum criteria for the role.
