JULIETTE KUNO (She/Her)

Product Manager

English + French | Linkedin | juliettekuno@gmail.com | Portfolio

Product Manager who owns Ganbare [a training tracking and scheduling app] from idea to launch, covering user research, Figma prototypes, a prioritised backlog and iterative releases with a developer. Backed by 6+ years of cross-functional delivery in events and account management: 50+ accounts managed end-to-end, 100+ stakeholders coordinated. Motivated by accessible, sustainable products that solve real problems.

EXPERIENCE

Events & Community Officer, The Castle Climbing Centre ..... 2022 Sep - 2024 Apr

- Led the full event lifecycle: pitching, risk assessment, resourcing, logistics and delivery.
- Coordinated 5+ internal departments and external teams to deliver both community-led projects and B2B events for large brands (Arc'teryx, Brit Rock, Reel Rock).
- Aligned events with company values and boosted brand visibility by delivering 10+ events of varied scales per year, doubling daily foot-traffic on large event days from 600 to 1200.
- Ran user research and supported pathways into climbing for under-represented and financially disadvantaged customers.

Account Manager [Sales & New Business], The Truman Brewery..... 2018 Aug - 2022 Aug

- Primary liaison for 100+ prospective clients, managing 50+ accounts end-to-end (Stranger Things/Netflix, Architect@Work, Activision etc.), generating ~£90,000 in annual venue hire revenue.
- Consulted on briefs, logistics, contract negotiation and debriefs; coordinated venue turnover across the team's wider portfolio; ran competitive audits + outreach strategies.
- Collaborated across 4 departments to deliver a diverse event diary spanning film productions, B2B events, brand activations, and fashion/music video shoots.

Client Coordinator, FITCH 2017

Client Coordinator, Dallorso Conseils 2011-2013

PROJECTS

Product Manager of GANBARE - case study..... May 2026-today

- Created and launched a web app to help core users commit to their health goals by enabling them to create their workouts, plan and track their training. 8 weeks in consecutive use, 60+ workouts logged, planning process reduced from 30 to 10 min.
- Led end-to-end the product lifecycle and ux design framework, in collaboration with a senior software developer.

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

Career Up-skilling: IBM Product Management Certificate .....2025 Nov - 2026 Apr

- Studied the full product development lifecycle, from ideation to commercialisation: business analysis, product design, market strategy, user research, Agile and cross-functional collaboration.
- Built a full product case study for a hypothetical physical and digital product: personas, documentation, Figma wireframes and a prioritised GitHub Kanban board.

Career Up-skilling: Google User Experience Design Certificate.....2025 May - 2025 Oct

- Studied user-centred design through the design thinking process: user empathy, problem and pain point definition, ideation, Figma prototyping and iterative testing.
- Learned UX research key fundamentals: planning research studies, interviews, usability testing, research findings synthesis.
- Applied UX concepts in practical projects: focus on accessibility, equity design, social/ environmental impact of products.

EDUCATION

MA Cultural & Creative Industries, King's College London.....2015-2017

BA English LLCE, Institut C. de Paris, France 2011-2014
